Address:

4866 Parkway Street, Los Angeles

Price:

\$ 700.00

All of our dogs are fully health tested. Additionally, we only consider breeding partners for our Cardigan / Pembroke Welsh Corgis that are fully health tested. Breeding only with health-tested parents is just one part of our breeding practices. Another important aspect involves careful planning to match breeding partners together that can produce puppies that exhibit each parent's best qualities and minimize introducing undesirable traits, including health issues. After years of producing exceptional Corgi puppies, we know that our reputation speaks for itself. We have provided our puppies with excellent care, and an awesome environment so that you will enjoy welcoming them into your family.
