CM Machine Services offers a wide range of top-quality food packaging machines in Canada and worldwide. These machines include Dip Tanks and Shrink Tunnels, which are essential for food processing. They offer single chamber and double automatic vacuum packaging machines. Labeling machines are used to put labels on various items, and CM Machine Services offers seven types of labels that can be customized upon customer request. Metal detectors are also available to ensure the safety of food packaging products. They offer various types of metal detectors to scan for metal chips in food materials, which can be customized upon request. Tray sealers are used to seal various types and sizes of trays by adding a film overtop. CM Machine Services provides manual, semi-automatic, and fully automatic tray sealers at affordable prices. CM Machine Services offers a wide variety of vacuum packaging machines to cater to the needs of food processing lines. With these top-quality machines, CM Machine Services provides a comprehensive solution for all your packaging needs.
