Address: Cabin Branch Distribution Center, 1595 Cabin Branch Drive, La Price: Free

TempGenius offers a cutting-edge WiFi Temperature Logging system designed to provide 24/7 monitoring with instant alerts and detailed reporting. Ideal for industries like healthcare, food service, laboratories, and data centers, this system ensures that your critical environments remain within safe parameters anytime, anywhere. TempGenius WiFi Temperature Loggers are fully automated and cloud-based, allowing users to access real-time data from any device. The system supports compliance with CDC, FDA, and Joint Commission guidelines, making it a dependable choice for facilities that require strict temperature control and record-keeping. Whether you're managing vaccines, perishable goods, or sensitive equipment, TempGenius gives you complete peace of mind. Installation is simple, with plug-and-play devices and customizable thresholds that trigger immediate SMS, email, or phone alerts when readings fall outside preset ranges. The system also offers detailed reporting tools, making audits and documentation effortless. What sets TempGenius apart is its reliability, scalability, and USA-based support. From a single refrigerator to multiple facility zones, TempGenius provides tailored solutions to match your monitoring needs. The system also supports battery backup and dual connectivity for uninterrupted performance. TempGenius has earned the trust of hospitals, universities, and Fortune 500 companies nationwide. Don't compromise when it comes to environmental safety, choose a temperature logging system that's proven, precise, and professional. For
