Grand Oak Auctions is a dynamic auction house specialising in the sale of quality goods across a range of categories, with a strong focus on industrial machinery, commercial assets, and new furniture. Based in South Africa, we provide sellers with a fast, efficient way to turn surplus stock, liquidated assets, or underutilised equipment into cash. Whether you're closing a business, restructuring, or simply freeing up floor space, we make the process smooth, secure, and profitable.

Buyers can expect honest, well-run auctions featuring everything from heavy machinery and workshop tools to household furniture and unique one-off finds. Our auctions are open to the public, business owners, collectors, and resellers looking for value and opportunity.

We run both live and online auctions, with full transparency and clear terms. Viewing days are held ahead of every sale so buyers can inspect items before bidding. For sellers, we offer flexible commission structures, nationwide reach, and aggressive marketing to ensure your items get the attention they deserve. As an additional service, we offer an auctioneer for hire, used by corporations and a go-to solution for charitable causes.
