Address:

**Noida, Noida**

Price:

**Free**

Braftovi (encorafenib) is used in targeted therapy for patients with Melanoma, Colorectal Cancer (CRC), and NSCLC. A common question is—“What is the Braftovi capsules price in India?” Currently, the medicine is not yet registered in India, hence its price is not available locally. The cost depends on international procurement sources, exchange rates, and shipment logistics. Indian Pharma Network (IPN) helps patients calculate the final landed cost once a prescription is shared. By working only with authorized overseas manufacturers, IPN guarantees the authenticity and safety of every pack imported. Importing through IPN ensures compliance with Indian drug regulatory frameworks. If you need to access Braftovi capsules, our team can provide you with transparent pricing details and guide you throughout the process. Reach out today for a cost consultation and patient-support assistance. Please call/WhatsApp: +91-9310090915 to import this medicine today.
