Price:

\$ 69.00

Email conversion from MBOX to PST files is made much easier with the TrustVare MBOX to PST Converter Tool. Emails and attachments from MBOX move under this program to PST. It transforms emails of different sizes and multiples from MBOX to PST files. The Original database structure is kept while MBOX is converted to PST. Including 11, 10, 8.1, 8, and 7, this utility works with all Windows versions. It runs with versions of Microsoft Outlook 2007, 2010, 2013, 2019, and 2021. It supports all MBOX email clients—including Eudora, Apple Mail, and Mozilla Thunderbird. This application manages ANSI PST files as well as UNICODE ones. It lets you get a preview before starting the migration project. This software offers constant client service. Its UI is easy to learn. In a few clicks, install and set up; then, test the free edition.
