If you need online depression counselling in India. The sheer extent of depression in India must be put into context when comparing against the overall mental health care counseling service; we can't possibly know if depression counselling is offered in India, if the depression counselling service offered, Ananya Life Skills, can be scaled up into the mental health care, or how one measures their mental health. The patient who is depressed would just prefer to stay at home alone and refuse to be treated. As long as individuals are no longer stigmatized to be ill and/or mentally ill in India, more such people will be able to come in and seek help; there are wonderful services out there that can provide you with assistance in coping with and managing your mental illness; any one of us at Ananya Life Skills would make a wonderful contribution. The whole message has to be imperative because the mental illness is something you need to continue working on, no matter how much you allow it to drift away or in whatever way it's driving you towards something that is communicating something essential to you, and calling for help if you are able to listen. You simply have to have faith in utilising the depression therapy service of Ananya Life Skills.
