Free

Ion Exchange (India) Limited has its presence in UAE for more than 3 decades. In 2007, we set up an ICV (In-Country value) certified assembly unit at the Hamriyah Free Zone in Sharjah. This facility assembles standardized & customized water and wastewater treatment plants. This includes fully containerized membrane & sewage treatment plants, solar powered desalination systems supported by 24x7 operation & maintenance services. It serves the requirement of customized and standardized water and waste treatment systems in the Gulf and African region.
