Price:

? 175.00

## Epidural Needle

The GSTC highly accurate epidural needle was designed with physicians in mind. A blunt tip with a bevel edge is incorporated into the design to reduce the possibility of dura mater puncture and CSF leakage, which is a crucial safety precaution while administering epidurals. For both adult and child use, the needle comes in sizes ranging from 16G to 27G and lengths of 8 cm to 10 cm. It is made of medical-grade stainless steel, which guarantees the durability, strength, and stability needed in high-use clinical settings.
