? 653000000.00

HD Hyundai Crawler & Mining Excavators deliver unmatched power, reliability and efficiency for the toughest earthmoving and mining jobs. Designed to excel in demanding conditions — from quarrying granite and marble to iron ore and coal mining — these robust tracked machines offer high digging forces, fuel-efficient engines and advanced hydraulics that boost productivity and lower operating costs. Built with reinforced structures, heavy-duty undercarriages and spacious operator cabins, they ensure superior durability, comfort and control across long workdays
