Address:	#5, CIBA, Assagao, M?puca
Price:	Check with seller

iMeta Technologies provides cryptocurrency exchange script that is engineered with basic to advanced trading functionality, liquidity API integration, automated matching engine, cross-exchange compatibility, multi-lingual support, and customizable user interface. You can easily build the crypto/digital asset exchange with little customization as you want. The installation and support throughout the development process will be handled by iMeta's experts. You can walk through the demo here - https://imetatech.io/cryptocurrency-exchange-script
