Last-minute gifting doesn't have to feel rushed. Digital vouchers let recipients choose a meal, activity, or store they genuinely like, while you avoid shipping delays and guesswork. With gift cards online, you can send a thoughtful option in minutes, include a personal note, and schedule delivery for the right moment. They work for birthdays, thank-yours, team rewards, and client gestures, especially when you're buying from afar. Look for clear redemption steps, flexible merchant choices, and simple support in case the recipient needs help.

Service and Products Includes:

- 1.E-gift cards and digital vouchers
- 2.Personalization tools and notes
- 3.Corporate accounts for bulk orders
- 4.Participating merchant marketplace
- 5.Merchant program with store pages

At Surprisy, we make it simple to send digital vouchers across Cyprus with the control businesses expect. Choose participating merchants, personalize the message, and handle bulk orders through corporate accounts without spreadsheets. If you run a shop, the merchant program gives you a store presence so customers can find and gift you easily. We focus on smooth delivery, clear terms, and reliable support. Gifting should feel effortless and well handled.
