Address:

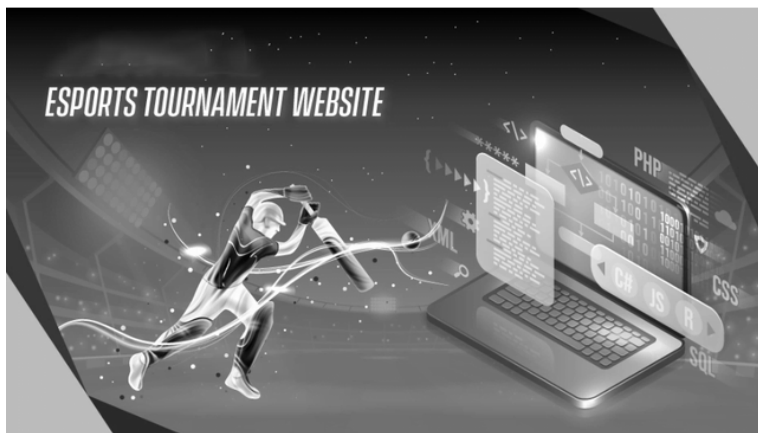

90, Veshvesvaraiya Nagar Extention, Usha Vihar, Triveni Nagar,

Price:

Free

Developing an esports tournament website with BR Softech involves planning and design, followed by front-end and back-end development to create user-friendly interfaces and robust functionality. Key features include user registration, team management, match scheduling, and live streaming. API integrations with esports platforms and payment systems are implemented. The website undergoes testing and deployment on a secure server, with ongoing support and updates provided post-launch.
