At Silicon Consultants LLC, we're transforming the landscape of infrastructure project design with our best-in-class CAD outsourcing solutions. Our team of experts skillfully utilizes the latest BIM tools to ensure our designs are precise and accurate. Specializing in Structural Engineering Services, our structural engineer's team employ top-tier software like Revit Structure to create intricate structural designs that adhere to the highest standards of quality and precision, ensuring that every AEC project is meticulously detailed and thoroughly reviewed for compliance with relevant design codes, standards, and regulations. Our Structural Design Services also include foundation design, structural analysis, and load calculations, providing our clients with a complete and comprehensive design package.

We offer

Structural Designing, Planning, and Drafting

Revit BIM Modeling Services

Structural Steel Detailing Services

Structural Shop Drawing Services

Structural Fabrication Drawing

Structural CAD Drafting Services
