Address: 12900 E. 10 Mile Road Warren, MI 48089 USA, Warren
Price: Check with seller

ASI Instruments offers top-of-the-line precision tools for rat brain dissection designed for researchers conducting detailed neuroanatomical studies. Our rat brain dissection equipment ensures clean, accurate cuts with minimal tissue distortion, making it essential for laboratories focused on neuroscience and neurological research. With our rodent brain matrices, researchers can achieve repeatable results that enhance the quality and accuracy of their work.

Built from durable, high-quality materials, these brain dissection tools are easy to use and specifically crafted for rodent models. Whether you're studying brain structures or conducting behavioral research, our equipment ensures reliable performance that supports advanced scientific discovery.

Explore our selection of neuroscience lab equipment and discover how ASI Instruments can improve your research outcomes with precise, efficient tools that meet the highest standards in the industry. At ASI Instruments, precision is at the heart of everything we do.
