What you need to know about Safe abortions in South Africa+27810122467

Terminating your pregnancy (abortion) is your legal right. Marie Stopes South Africa offers safe abortions for unwanted pregnancies up to 20 weeks. Our nurses and doctors are accredited professionals, in sexual and reproductive healthcare. Our work is strictly governed by the Choice on Termination of Pregnancy Act (amended 2008), and we adhere to World Health Organisation Guidelines and protocols set out by Marie Stopes International.

Find out more about Marie Stopes, South Africa's leader in safe abortion and sexual health services here.

The reality is that 'backstreet' methods may lead to severe complications, infections causing prolonged absence from work, permanent infertility and, in the most heart-breaking cases, even death. Please know that you never have to feel embarrassed about considering to have an abortion, it's your legal right, and we are here for you, always.
